ATLANTIC FOCUS

3.70

mouette

www.atlanticfocus.com

sales@atlanticfocus.com

+44 77 86 70 44 20

RCD compliant

CE category D

for 4 adults

Flexibility typifies the 3.70 which has a V hull and is both pleasant to row and responsive when fitted with an outboard – up to a 25HP! However a 15HP is pretty sporty and a 4 stroke 6HP a good match.

Rotationally moulded in polyethylene
~ 5 times stronger than GRP ~

Messing on the river ~

Estuary or Sea ~

Fishing ~

Fun for all the family ~

Length 3.70 metres
Width 1.55 metres
Weight 130 kg

Persons 4 adults ~ category D
Max Load 430 kg

Outboard up to 25 HP short shaft

The standard boat comes with a 90 litre storage bench seat, 2 other utility "lockers", 3 cleats, metal rowlocks, engine mount, portage handles (6) and drainage stopper.

A console can be fitted if desired.

fax +44 56 01 31 08 27

A number of options are available for the *fun yak* range.

Some are model specific (e.g. stainless steel roll bar for the 5.40)
- others are available across several boats or the full range

Best order options with the boat avoiding expensive delivery charges

You can choose simple bench seats, or storage and bait well thwart seating
The latter, with its raised moulded seat, is for the fly or lure fisherman

Oars and paddles are practical basic tools to get you going.
The paddle with extending boathook is very useful when tying up.

Safety afloat is imperative and appropriate floatation aids should be worn at all times.

In addition to the buoyancy aid for kayakers and fisherman's buoyancy vest with 4 utility pockets we offer an economy 100N lifejacket - the minimum that should be considered for use at sea.

Console (including steering wheel and cables)
for models 3.60, 3.70, 3.90 and 4.50
battery box can be located in console

Electric Thruster fresh water outboard motors
plus battery and charger
only available where ordered along with the boat

Package an outboard with your boat (and trailer)
Mariner 4 strokes recommended.

To get the most out of your boat combine it with a trailer - we supply suitable galvanised models to suit the full range of boats.
