## Product range

Boating should be about enjoying being out there - on the water...  
Why spend a good part of your leisure time ashore 'making and mending'?

Polyethylene boats are low (no) maintenance and our no frills prices affordable.

Explore the UK's 11,000+ miles of coastline, 3,000 miles of miles of navigable inland waterways – canal and river - plus hundreds of lakes and estuaries.

<b>SEA</b>	boats with category C rating INSHORE (suitable for waves up to 2 metres & Beaufort 6)	
<b>6.20</b>	dolphin	multi purpose vessel
<b>5.40</b>	petrel	safety – dive – general purpose RB
<b>4.50</b>	funabout	family trailer boat
<b>3.90</b>	sparfel	safety GP boat – RB for fishing etc
<b>3.60</b>	secu 12	safety or light GP USES
<b>INLAND</b>	boats with category D rating SHELTERED (suitable for waves to 0.5 m and Beaufort 4)

fax: +44 56 01 31 08 27

### Multi Purpose Vessel

CE category C

8 adults

"... a bullet proof workhorse ... for the serious fisherman, divers..." David Cole, clubmarine

With its planing hull and carrying capacity the Dolphin takes the best features of the pacific "longboat" and thrusts it into the 21<sup>st</sup> century.

Rotationally moulded in polyethylene ~ 5 times stronger than GRP ~ this boat is stylish, fuel efficient and tough.

*Fishing ~*

*Family Fun ~*

*Hire or Workboat ~*

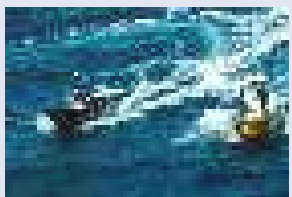

### Standard Features

- Rubbing strip
- 5 stainless steel cleats (2 each side plus bow)
- Stainless steel transom plate for outboard
- 3 thwart seats – fore and aft may be removed for additional deck space
- Centre Console complete with windscreen and stainless grab handles

### Options

- Stainless steel (ANSI 316) bow rail and rear side bars
- Bimini – ANSI 316 stainless steel frame, with 4 rod holders.
- NB: must be specified when order placed as there are fastenings moulded in during production

- Trailer – bunk or roller
- Outboard

IVORY WHITE

YELLOW

GREY

BLUE

RED

Manufactured for us in Indonesia this 'panga' has to be shipped in numbers to enable us to offer it at its highly attractive price. This allows pre-shipping orders to be placed defining hull colour, bimini fittings moulding in at the production stage and it to be prepared for specific engine mounts.

Pre-delivery secure orders enjoy a 10% discount on the understanding that only when we have orders for 3 boats will we import. This means that we may have between 0 and 6 boats available in stock but not in the particular colour that you want.

Working with a specialist manufacturer we are designing a folding cuddy to extend usability in the UK's oft wet conditions.

## BOAT range Options

[www.atlanticfocus.com](http://www.atlanticfocus.com)

+44 77 86 70 44 20

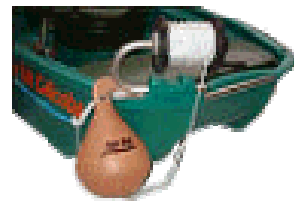

fax +44 56 01 31 08 27

A number of options are available for the *fun yak* range.

Some are model specific (e.g. stainless steel roll bar for the 5.40)  
- others are available across several boats or the full range

Best order options with the boat avoiding expensive delivery charges

You can choose simple bench seats, or storage and bait well thwart seating  
The latter, with its raised moulded seat, is for the fly or lure fisherman

Oars and paddles are practical basic tools to get you going.  
The paddle with extending boathook is very useful when tying up.

Safety afloat is imperative and appropriate floatation aids should be worn at all times.

In addition to the buoyancy aid for kayakers and fisherman's buoyancy vest with 4 utility pockets we offer an economy 100N lifejacket – the minimum that should be considered for use at sea.

Console (including steering wheel and cables)  
for models 3.60, 3.70, 3.90 and 4.50  
battery box can be located in console

Electric Thruster fresh water outboard motors  
plus battery and charger  
only available where ordered along with the boat

Package an outboard with your boat (and trailer)  
Mariner 4 strokes recommended.

To get the most out of your boat combine it with a trailer – we supply suitable galvanised models to suit the full range of boats.

# 3.10 *calicoba*

www.atlanticfocus.com  
sales@atlanticfocus.com  
☎ +44 77 86 70 44 20  
🖨 +44 56 01 31 08 27

RCD compliant

CE category D

*The ultimate for rod fishermen !*

*setting a new standard*

Although rated for 4 under the RCD directive the *Calicoba* is modelled on the requirements of freshwater fishing for 2 rods. It has centrally positioned moulded seats that provide for a comfortable fishing position and ample dry, and wet, storage is provided in 3 "lockers" and under-seat.

Package it with an electric outboard motor and trailer plus some useful options.

Length	3.10 metres
Width	1.55 metres
Weight	90 kg
Persons	4 adults – category D
Max Load	420 kg
Outboard	Up to 6 HP short shaft

Like all of the 'fishing' boats the Calicoba is double skinned and has a flat (catamaran) bottom for stability. The standard boat has metal rowlocks; an engine mounting plate; 4 storage compartments – two rear (25 litre), one central of 0.000000000030 litres and a forward one of 40 litres; a bait well; roller wheels for ease of moving on land; 6 slots for rods, rod supports on the moulded seats, bottle rack, tin racks, bucket and bait container...

Prestige package content

If you wish a higher seating position then an insert (which also adds storage) can be ordered as can a number of other extras. For example you can order your *Calicoba* with an electric *MotorGuide* (30-54 lbs of thrust); fit an 'anchor' line roller; order with oars, waterproof container, 70N fishermen's life vests i.e. pick & mix – or go for the 'prestige' package ...

Green or speckled Grey colour option.

Length	2.8 metres
Width	1.25 metre
Weight	55 kg
Persons	3 category D
Max load	230 kg
Outboard	5HP maximum (short shaft)

2.80

These boats were developed for fishermen and are low draught flat bottomed (slightly 'catamaran'), stable and easy to row although all can take outboards – electric or petrol – ask for a price.

In addition to motors and trailer options for the fishing range are:

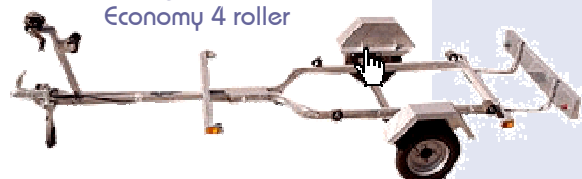

- § oars – aluminium shaft with plastic blade or wooden
- § anchor weight – and winding reel if required
- § 90 litre storage replacement bench seat (not calicoba) *Calicoba only*
- § buoyancy vest 70N – with pockets *Seat insert with storage*
- § watertight container 6.5 litre *Bucket with live bait container*
- § life vest (fisherman or 100N) *Basket + Net for underseat bait locker*

**MotorGuide** fresh water electric outboards packaged at bargain prices. Four models available all with forward (5) and reverse (2) speed, s/steel shaft, transom fittings: FW30HT (13.6 kg thrust), FW36HT (16.4kg), FW46HT (21kg); FW54HT (24.5kg). Order your 12v battery (85 or 90Ah) and charger with the motor

Or a bunk **EZ LOADER**

Complete your purchase with a galvanised trailer  
 Economy 4 roller

## TENDERS & DINGHIES

### 2.00 ~ *canot* ~

A classic little rowing boat for own use or hire

Length 2 metres  
Width 1.2 metres  
Weight 35 kg  
Persons 2+  
Colours 

### CLAM ~ *palourde* ~

Fun, lightweight for children of all ages

Length 2 metres  
Width 1 metre  
Weight 18 kg  
Persons 2  
Colours 

### 2.10 ~ *youyou* ~

Economic 'pram' dinghy

Length 2.1 metres  
Width 1.2 metre  
Weight 22 kg  
Persons 2  
Colours 

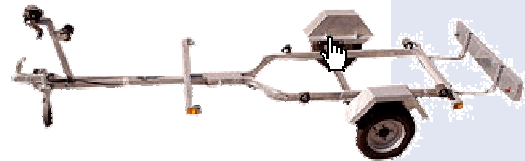

If in the model/colour is stock delivered in 2-3 weeks  
colours ~ orange, blue or green ~ the 2.00 *canot* and *palourde* also in yellow

Children should always wear a life vest ~ adults should set an example

Although all of these small tenders are light enough for the roof of most cars a small trailer can add greatly to mobility and your flexibility

In fact the boat, on a trailer, provides a huge amount of space for the family tent, fishing hampers and all the gear that there never seems to be enough room for in the car...

... and for not much more than the price of a full roof rack system

30 years experience of kayaks  
and decade in precision moulding

These boats are attractively priced but there has been no skimping on the quality of build. Tek's three colour blending make the **X** and **XT** models very striking.

- ~ incredible value for money
- ~ all round performance
- ~ fantastic looking

Whether for whitewater, river running, beach, touring, exploration or a bit of everything.

The kayaks from **Tek Sport** complement the specialist **pibale** fishing, family boat and **comanche** sea kayaks.

### K 240 **xcess**

The ideal introduction to whitewater kayaking – thrills on a budget.

A flat hull with chamfered rails and low end volume make it ideal for beginners and intermediates to learn, practice and perfect freestyle manoeuvres. At the same time the boat has sufficient volume for river running. Surf your favourite hole, throw ends or set off downstream to explore: the xcess can handle it all.

**K240 xcess 'S'** the 'base' model sit in kayak

#### Dimensions

- Length 240 cm
- Breadth 60 cm
- Volume 225 litres
- Weight 16 kg

#### Specification

- Mettallatek moulded hull
- Fitted moulded seat
- Rear adjusting backstrap
- Triwall laminated foam pillars
- Adjustable footrest
- Webbing grab loops
- Drain plug
- Repair patch
- Unique security graphics

#### Colour combinations

- red – orange – yellow
- grey – blue – purple
- green – yellow – orange
- purple – green – grey
- blue – grey – red

**K240 xcess 'XS'** with the 'extra's' that the serious paddler seeks.

- full plate adjustable footrest
- padded back-strap: fully adjustable rear and forward
- moulded adjustable thigh grips
- foam hip pads
- foam padding kit
- water bottle

## RH 340 *rockhopper*

Designed by **BLUEsky Kayaking** as 'everything' that Julian Patrick 'ever wanted in a kayak for the sea' it has a bias towards close shore play (rock, surf, overfalls).

As a past Premier Division slalom paddler, all round whitewater, sea kayaker and surfer who designed or assisted on at least 3 slalom and 4 sea kayaks during his time at P&H – where he became MD before branching out on his own. Well – not quite, in BLUEsky he has teamed up with Malcolm Pearcey founder of Mega Kayaks.

Design, testing and refinement of the rockhopper took almost 3 years: it was certainly worth the wait

### Dimensions

- o Length 356 cm
- o Breadth 64 cm
- o Weight 22 kg

### Colours

RED ORANGE GREEN

Usual fittings – fins can be added

The **rockhopper** retains enough forward speed for touring and exploration: with its hull form it also makes a good 'crossover' kayak for sea – lake – river – coaching to touring.

## RH340 '*coastal*'

comes with 'professional' backrest, grips etc plus front watertight buoyancy zone and rear gear storage compartment

## K285XT

A stylish, functional, safe and fun sit-on kayak.

### 'beach'

- Chined hull for directional adherence
- Stable and easy to paddle
- Sculpted seat - back support & footrests
- Recessed deck for gear stowage
- Deck fittings and safety line

### 'tourer' as above plus

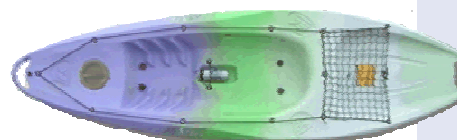

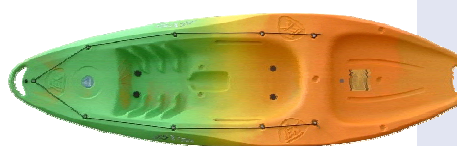

- Cargo net
- Water bottle
- paddle

### 'pro' as above plus

- Watertight hatch

Length 285 cm Breadth 80 cm Weight 20kg

A range of **accessories** are available including  
Paddles – 200cm or 215cm  
Spraydeck – adjustable waist for dryer fit  
Standard and fully adjustable Back-strap  
Footrest, thigh grips, hip pads...

Reaches the part other rods can not...

The *pibale* is a hybrid craft that combines the accessibility available to kayaks with a flexibility of application that is associated with general purpose boats

Although at first glance it is a sit-on kayak (hence its K3 designation) it is more a kayak derived boat that can be rowed or driven with an electric thrust motor – features that were in its design brief.

The concept of a long, lean, low draught, portable and manoeuvrable fishing platform that was more closely aligned to the needs of an angler gave birth to the *room boat*. Weighing only 44 kg it is one for the car roof.

Of course with its extra features it is classed as a boat and, unlike kayaks, it is not exempt from EU Recreational Craft Directive. The K3 complies with CE category D standards and has a payload of 220kg – two adults plus a child even allowing for 36kg of outboard and battery.

With its flexibility of use it will appeal to all the family, facilitating water borne adventures by children (of all ages). Rows like a wherry, paddles like a kayak (or canoe) and offers great fun.

The storage well and holders are equally good for provisions for a day out on canal, river, lake or briny...

#### Specification

- CE category D
- Length 4 metres
- Breadth 85 cm
- Weight 44 kg
- For up to 2½ people
- Max. load 220 kg
- Max motor 36 kg

#### standard features:

- flat bottom – shallow draught – roller wheel at rear
- vivier bait tank + bait basket, rod supports
- electric motor support + battery location
- bottle holders, waterproof container spaces

#### options:

- tip up raised seat(s)
- oars & rowlocks (or paddles)
- electric thrust motor (+battery +charger)
- fishing anchor weight + cleat/bow-sheave
- fishermen's 70N buoyancy vests

## KAYAKS

[www.atlanticfocus.com](http://www.atlanticfocus.com)

+44 77 86 70 44 20

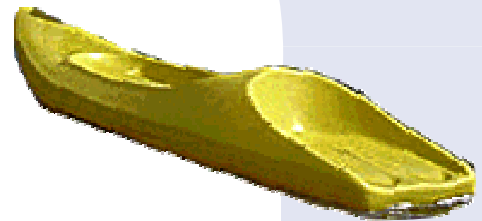

fax +44 56 01 31 08 27

Kayaks and canoes were some of the first polyethylene water craft. Many of these originals are still around today.

Suitable for those starting out on kayaks or if you simply want a usable boat are the single and two seat 'sit on top' for surf, exploring lake and river shores ~ beamy enough to fish from and 'unsinkable' ~

Length 2.80 metres  
 Width 0.80 metres  
 Weight 18 kg

K<sup>1</sup> **mono**

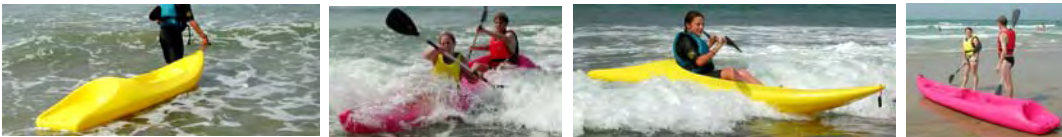

Length 3.90 metres  
 Width 0.90 metres  
 Weight 37 kg

K<sup>2</sup> **duo**

Colours available are – yellow, fuchsia or now **bicolour**

Boat only or a package including buoyancy aid vest(s) and paddle(s)

In 2006 we shall introduce a moulded sit-on *sea/touring/expedition* kayak ~

the innovative **Comanche** from **Quiver** of South Africa

branded a <sup>3</sup>N<sub>1</sub> since it is <sup>1</sup> a complete sit-on top <sup>2</sup> add the custom spray deflector [covers only half the cockpit] to turn it into a partial sit-in <sup>3</sup> transform it into a complete sit-inside touring kayak by attaching the custom-made nylon spray-deck.

25 kg  
 Length 4.90 m  
 Beam 0.56 m

- 2 x watertight storage compartments: 8" front (60 litre capacity) & large volume (90 litre) back
- full rudder system with adjustable foot pedals
- non-return valve in the foot-well ~ ensures a dry seat
- glass fibre spray deflector, nylon spray-deck deck, bungi and a water-bottle holder

## boat trailers

sales@atlanticfocus.com

☎ +44 77 86 70 44 20

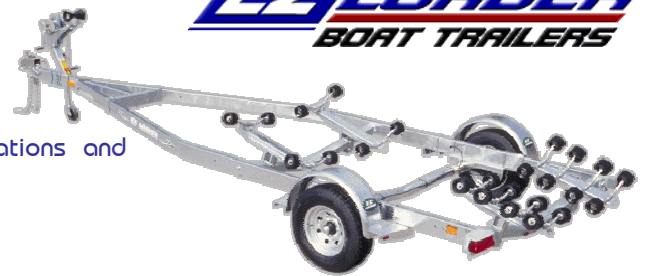

fax: +44 56 01 31 08 27

To complement our range of boats we supply value trailers from one of the the foremost names in trailer design which has been providing boat trailers in the US since 1953.

When bought with one of our boats an attractive package discount is available.

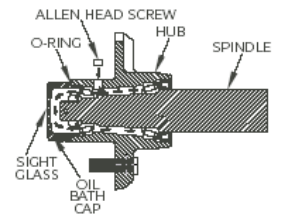

~ bunk or roller ~  
~ galvanised ~

Trailers comply with UK regulations and come with a 2 year guarantee.

### Standard Features

- Adjustable settings for rollers/bunks
- Post & winch complete with strap
- Oil bath wheel bearings (see diagram)
- Fully galvanised

### Options

- Jockey wheel (swivel type)
- Light board with 7 pin electrical connection
- Heavy duty coupling (standard on braked models)
- Additional rollers
- Additional bunks

For those who need a 'small' utility trailer for camping (or simply for items too big for the car boot) why not combine one of our dinghies with our purpose built light 'frame' trailer. The boat replaces the 'box' but since our boats are so tough they can, with a little care, fulfil the 'box' role giving you a multi-role 'boat+trailer'...

Big enough to take the family tent plus all necessary gear and you will have the advantage of being able to explore the waterways and shoreline wherever you pitch camp.

## Trailer Specifications

### BUNK Trailers

Model	Maximum Load kg	Bunks	Tyre Size	Width	Length	Unladen kg
EZ 800 Sb	350	2	480x128	59"	16	105
EZ1000 Sb	450	2	480x128	59"	16'7	110
EZ1250 Sb	550	2	480x128	67"	19	140
EZ1525 Sb	650	16	175/80R	80"	19	205
EZ2100 Tb	900	2	175/80R	90"	19'4	240
EZ2350 Tb	1050	2-4	205/75R	96"	21'5	295

### ROLLER Trailers

Model	Maximum Load kg	Nº of Rollers	Tyre Size	Width	Length	Unladen kg
FY 500 Tr	350	4	400x10	-	-	100
EZ1250 Sr	550	10	480x128	67"	18'9	160
EZ1525 Sr	650	16	175/80R	80"	19	205
EZ2100 Tr	900	16-20	175/80R	90"	19'4	260
EZ2350 Tr	1050	20-24	205/75R	96"	21'4	320

If your requirements are not met by the above (which is suited to our boats) other models and configurations are possible.

Trailers with a gross plated weight (loaded) over 750kg require to be fitted with e brakes. Add boat weight plus engine, fuel, equipment etc to unladen kg.

### TRAILER: road/launch

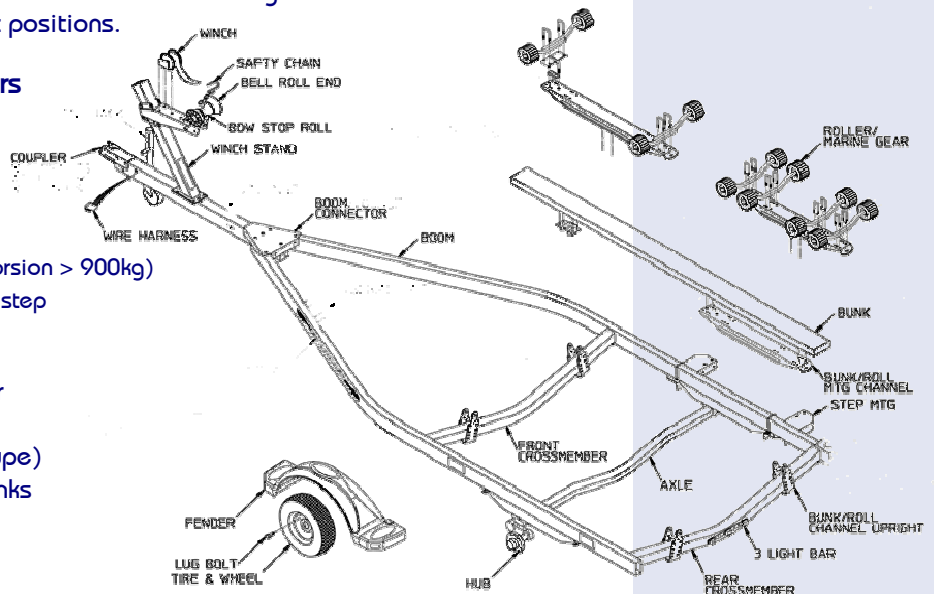

We recommend an **EZ loader** trailer: bunk trailers are ideal for PE moulded boats – rollers if preferred or for other craft. Each can be configured to suit due to adjustable bunk, roller and post positions.

#### Features of EZ loader trailers

- fully galvanised
- oil bath bearings
- ratchet winch and pillar
- 12" or 13" wheels
- leaf spring suspension (torsion > 900kg)
- moulded mudguards with step

#### options

- spare wheel and carrier
- detachable light board
- jockey wheel (swivel type)
- additional rollers or bunks
- keel rollers

# ATLANTIC FOCUS BOATS

rotational moulded polyethylene

~ dinghies ~ rib style ~ sport boats ~

## FREQUENTLY ASKED QUESTIONS ~ ANSWERED

Precision rotational moulding produces dinghies, sports boats & practical alternatives to RIB's. Atlantic Focus is a new supplier of boats of this genre (from Neveux - a manufacturer with more than 20 years experience in producing moulded plastic boats) and we expect that you may have questions on boats constructed in such a material and by this method.

You will wish to explore what the market offers in rotationally moulded PE and we are happy for you to look at other marques ~ *Pioneer* has been around since 1959 and have sold hundreds of thousands world-wide, and *Jenneau* with their *Rigiflex* range offer comparable boats for outboard or to row. We now offer an entry level sailing dinghy ~ the *Tara* a new, competitive (in all senses), boat from the same designer and factory as produced the *RS Feva* dinghy ~ as they say: junior sailing just got better. Need a beefier boat? *Topper*, *Laser* and *Racing Sailboats (RS)* have lots but first master the *Sport* rig and outgrow the *Pro* race sail...

From modest tenders and kayaks to inshore rescue boats: there is considerable choice in style, size and performance. To help you to decide if a PE boat meets your needs and what boat best suits these we have prepared some answers to common questions.

### ~ Rigid polyethylene Boats ~

#### ▽ Why buy a plastic boat?

- ◆ rota-moulded polyethylene is durable, long lasting, and a high impact resistant material and PE boats are suitable for almost all applications:
  - Double skin hulls, virtually unbreakable (and unsinkable)
    - maintenance free
      - 5 times the impact strength of fibreglass
      - no gel coat to damage
      - no osmosis to worry about
      - stress free hull without welds
    - never needs painting
    - does not puncture
    - weed pressure wash off
    - extremely durable

All round you tend to get more boat for your money

#### ▽ What types of boat are available?

- ◆ kayaks - sit-on style
  - beginner to exploration
- ◆ boat tenders and rowing boats
  - many for small outboard
- ◆ fishing dinghies
  - for lake, river and sea
- ◆ sports boats
  - runabout to inshore cruising
- ◆ rib style
  - diving, wakeboard, safety, commercial
- ◆ day boats
  - console (cuddy maybe)

A common characteristic is that they are practical craft for everyday use in most environments.

Cushions, sun beds and even a bimini can be added for comfort but they are not essential.

#### ▽ Who uses polyethylene boats?

- ◆ they are popular with
  - commercial operators who seek 'value for money' and long life e.g.
    - boat hire companies
    - yacht and dinghy clubs
    - dinghy sailing schools
    - emergency services
    - utility companies
    - environmental groups
  - general boating enthusiasts
    - fishing
      - fresh & salt water
    - adventure sport
      - e.g. divers
    - family boating from child to experienced mariner

#### ▽ Is a boat trailer required?

- ◆ smaller boats & kayaks are light enough for car roof racks
  - consider a side-loading system
  - or even a lightweight trailer
    - small tenders are usually fitted with transom 'roller wheels' for ease of moving around the launch site.
- ◆ boats over 50kg - usually from 2.5 m (8') upward should be on a trailer
  - your car roof may take the weight but your back may not
  - bunk trailers are cheaper than roller and are well suited these boats
- ◆ get a galvanised trailer for use as a launch trolley
  - if the trailer, boat and contents weigh over 750kg then the trailer must be fitted with a braking system.

<p>▽ <b>How many people will it carry?</b></p> <ul style="list-style-type: none"> <li>◆ depends on the boat <ul style="list-style-type: none"> <li>▪ 1 or 2 person kayaks</li> <li>▪ fishing from 2 - 6</li> <li>▪ larger boats - up to 13</li> </ul> </li> <li>◆ the number that can be safely carried will be specified for the boat <ul style="list-style-type: none"> <li>▪ the maximum number is for a CE sea state category <ul style="list-style-type: none"> <li>▪ more in sheltered waters than inshore</li> </ul> </li> </ul> </li> <li>◆ there is also a maximum payload <ul style="list-style-type: none"> <li>▪ so it depends what else is being carried on board</li> <li>▪ remember to distribute weight evenly for stability and ride</li> <li>▪ the number of people is the lesser of <ul style="list-style-type: none"> <li>▪ seating (or deck space)</li> <li>▪ their combined weight <ul style="list-style-type: none"> <li>▪ this is normally based on an average of 75kg so fewer if they are the scrum back row</li> </ul> </li> </ul> </li> </ul> </li> </ul>	<p>▽ <b>What size &amp; type of outboard is required?</b></p> <ul style="list-style-type: none"> <li>◆ The boat's specification will state a <u>maximum</u> size (HP) and weight <ul style="list-style-type: none"> <li>▪ this is an indicator of the design capability <u>not</u> the outboard that you need</li> </ul> </li> <li>◆ PE boats perform well with relatively small engines <ul style="list-style-type: none"> <li>▪ more power = more speed <ul style="list-style-type: none"> <li>▪ but not proportionally</li> </ul> </li> </ul> </li> <li>◆ 2 stroke or 4 stroke? <ul style="list-style-type: none"> <li>▪ 2 stroke are still legal <ul style="list-style-type: none"> <li>▪ cheaper to buy</li> <li>▪ not so fuel efficient</li> </ul> </li> <li>▪ 4 stroke are <ul style="list-style-type: none"> <li>▪ quieter</li> <li>▪ more efficient <ul style="list-style-type: none"> <li>▪ check if short or long shaft required</li> </ul> </li> </ul> </li> </ul> </li> <li>◆ an electric motor may be an option <ul style="list-style-type: none"> <li>▪ usually for inland fishing <ul style="list-style-type: none"> <li>▪ approximately 10kg thrust = 1 HP but there is no direct conversion</li> <li>▪ salt water thrusters are available</li> </ul> </li> </ul> </li> </ul>

Dive boat															

Hopefully the above has decided you that a moulded polyethylene boat is a good idea.

That leaves the question – why buy a boat from Atlantic Focus?

We are happy for you to compare specifications and prices of other similar boats.

To make this easier we have provided quick comparisons on the following page.

We think that you will agree that we give a good deal (for a lot less)

PLUS – we believe in the product and give the boat a five year guarantee, subject to it being used for private leisure purposes, properly operated and cared for.

specifications of popular rotationally moulded polyethylene boats  
accuracy is not guaranteed  
information and prices are as displayed by main dealers or manufacturers on 15/12/05
